I ALMOST got acquainted

WITH A charming man at a DINNER PARTY last evening but

THE WOMAN who sat between

US HAD spent too much

MONEY FOR hair that had

BELONGED TO others.

EVERY PLEASANTRY of mine

WAS EITHER hooked by

A CURL or deflected by

A FALSE puff. Ther, too, I

FANCIED THAT all of the

ORIGINAL OWNERS of that

ASSORTMENT of hair were listening

TO OUR conversation and it

EMBARRASSED ME. Why in

THE WORLD more women don't

LEARN OF HERPICIDE and

TRY FOR the home grown

VARIETY OF hair is a

MYSTERY to me.

Yours for beautiful hair,

Herpicide Mary

WORRY IS A DISEASE

The disorder which causes its victims to worry whether they have anything to worry about or not is neurasthenia. Neurasthenia is entirely distinct from hysteria although the patient may have both diseases at the same time.

Neurasthenia often results from some nervous shock, such as the loss of a near relative, business reverses, or some severe overstrain on the nervous system. The patient is usually pale, showing that the blood is thin, and the first thing to do is to build up the blood because anything that builds up the general health helps to correct the neurasthenic condition. Rest and a good tonic is the very best treatment in most cases.

Dr. Williams' Pink Pills are an ideal tonic for this condition because they are non-alcoholic and neurasthenic patients should avoid alcoholic stimulants.

The Dr. Williams' Medicine Company, Schenectady, N. Y., has published a little book on nervous disorders that contains a chapter on neurasthenia, in which the symptoms are fully described and the correct treatment given. The booklet is free on request.

Dr. Williams' Pink Pills are sold by your own druggist or will be sent by mail, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50.
